a big idea for smaller art

# Mysteries

Nihal Kececi Thadani

**December 16, 2016 - March 19, 2017**

Opening Reception: Friday, December 16 at 7-9 pm

Artist Talk and Closing Reception: Sunday, March 19 at 5 pm

Nihal's work explores the perception of light as revealed through the nuance of colors, creating a space between the natural and abstract.

Working in the glazing technique, the paintings are developed through numerous translucent layers of pigment suspended in thin acrylic layers which, creates an environment of diffused light that remains minimal and abstract.
